*NSA/CSS EPL 02-02-D
Annex A to NSA/CSS 02-02
29 October 2004*

**NSA/CSS EVALUATED PRODUCTS LIST
for
HIGH SECURITY DISINTEGRATORS**

The Evaluated Products List (EPL) contains a listing of High Security Disintegrators that have been evaluated by the National Security Agency (NSA) or its designee and meet the performance requirements of NSA/CSS Specification 02-02, High Security Disintegrators. Inclusion of a product in the EPL is not an endorsement by NSA or the U.S. Government.

The EPL provides the device name, model number, rated capacity, distributor, manufacturer, sales/marketing contacts, configuration evaluated, and the materials (paper and/or paper/plastic punched tape material) that were evaluated for destruction for each individual unit. Models that have successfully passed evaluation for paper/plastic punched tape material will be listed as "PPKM" in the authorized material column of this document. Other compliant disintegrators identical to the models listed may be available under different brand names or through distributors or resellers. The EPL is organized by rated capacity and alphabetically by distributor name.

The EPL shall be updated on a quarterly basis. Users are encouraged to contact the disintegrator manufacturers /distributors for assistance in selecting unit(s) best suited to their requirements, and to determine if additional disintegrator units have been added to the EPL in the interim.

The procedures for administration and distribution of the EPL are subject to change without notice. Inquiries from U.S. Government users should be forwarded through designated support channels to the NSA Information Directorate. All other inquiries should be directed to the NSA Public Affairs Office
